

# MID-RANGE MICHIANA USER'S GROUP

([www.MRMUG.org](http://www.MRMUG.org))

**Thursday January 23, 2014**

Meeting begins at **12:00 noon EST** (South Bend Time). Lunch will provided.

## Topic – Newest data collection devices and Worklight

**Learn about the newest data collection devices and how Worklight can help you develop applications for mobile devices of all types.**

Mark Laatz will bring us up to date on the latest models of data collection devices.

Parke Cummins will talk about Worklight, an IBM product that enables you to develop an application and then deploy it to a variety of devices, transparently.

For example, you develop a cycle counting application, and worklight will deploy it to an iPhone, a Kindle (Android), a Surface (Windows 8), and an internet browser.

Worklight manages the devices by deploying changes and serving as a facilitator for communication with back-end servers like databases and ERP systems.

**Lunch from Papa Vino's will be provided**

Please [register](#) for the meeting before noon on Wednesday January 22, 2014.

## Still running on V5R4? READ THIS!

If you are still running on IBM i version 5.4, you need to strongly consider upgrading to V7R1!

As we discussed at the March 21, 2013 MRMUG meeting, support for V5R4 ended on September 30, 2013.

**V5R4 was Announced**  
April 10, 2007

**Marketing withdrawn:**  
May 27, 2011

**Service Discontinued:**  
September 30, 2013

If you are still running on V5R4, you can purchase Service Extension for V5R4 for basic usage and problem rediscovery support. Software Maintenance is a REQUIRED pre-requisite for Service Extension.

Service Extension for V5R4 ends September 30, 2016.

Here's a link to the March 21, 2013 MRMUG presentation "[IBM i V7R1, What's the value? What do I get? and... what is it going to cost me not to leave V5R4](#)". For more information, contact your IBM Business Partner.
