Topic – Quick-CSi for IBM i

At the July MRMUG meeting, BCS Group will present Quick-CSi.

Your IBM System i is reachable by the IT team, providers (manufacturers, editors, consultant) and your users. Even though your IBM i System provides securities for access and procedures, you're not protected against such things as usage mistakes, embezzlement, etc (voluntary or not) on confidential data.

Quick-CSi allows you to track all the operations made on your system, alert you and take all the necessary measures.

Quick-CSi also provides a full audit and security suite: access control and detailed follow-up of all the events through one single interface.

With Quick CSi, get:

- Fast implementation
- Simple and clear homogeneous interface
- High level of automatization
- Alerts management
- Valuable reports for auditing

Please note the following important information

V7R1 will be withdrawn from marketing on September 30, 2017

Support for V7R1 will end on April 30, 2018

- Service Extension for V7R1 has not been announced yet.

Support for V6R1 ended on September 30, 2015

- Service Extension for V6R1 is available at an additional cost through September 30, 2018. Software Maintenance is a required pre-requisite for Service Extension.

Extended support for V5R4 ends September 30, 2017

- Support for V5R4 ended on September 30, 2013.
- Service Extension ends September 30, 2017.
