

MID-RANGE MICHIANA USER'S GROUP

(www.MRMUG.org)

Thursday March 20, 2014

Meeting begins at **12:00 noon EST** (South Bend Time). Lunch will be provided.

Topic –IBM QRadar

A Provocative New Approach to Integrated Security Intelligence – IBM Introduces QRadar Vulnerability Manager

Vulnerability management activities have long been a core requirement of every organization's security practices, helping them fully understand the extent of their exposures and the overall security state of their networks. Yet many security teams continue to struggle against the inherent operational limitations – and resulting manual processes – of the available solutions typically deployed as isolated silos.

Scan results are presented apart from other depictions of the security infrastructure, limiting the effective context of these reports and complicating the development of a comprehensive and actionable security management plan.

QRadar is not just another commodity vulnerability scanner.

Our speaker is Jim Minie from IBM.

Jim has over 28 years extensive experience in a wide aspect of computer/network system and software technical engineering, including technical sales, design and implementation, 13+ years of information security, compliance, project and technical department/group and technical sales management. He has been a systems engineer for Q1Labs/IBM for over 2.5 years.

Lunch will be provided

Please [register](#) for the meeting before noon on Wednesday March 19, 2014.

Still running on V5R4? READ THIS!

If you are still running on IBM i version 5.4, you need to strongly consider upgrading to V7R1!

As we discussed at the March 21, 2013 MRMUG meeting, support for V5R4 ended on September 30, 2013.

V5R4 was Announced

April 10, 2007

Marketing withdrawn:

May 27, 2011

Service Discontinued:

September 30, 2013

If you are still running on V5R4, you can purchase Service Extension for V5R4 for basic usage and problem rediscovery support. Software Maintenance is a REQUIRED prerequisite for Service Extension.

Service Extension for V5R4 ends September 30, 2016.

Here's a link to the March 21, 2013 MRMUG presentation "[IBM i V7R1, What's the value? What do I get? and... what is it going to cost me not to leave V5R4?](#)". For more information, contact your IBM Business Partner.

From the Board of Directors

We are looking for board members. If you are interested in participating on the MRMUG Board of Directors, please contact Craig Nelson (cnelson@ciber.com)

Meeting Location

CIBER Innovation and Technology Center
4100 Edison Lakes Parkway
Suite 240
Mishawaka, IN 46545

Please register for the meeting

(Please register by noon on the day before the meeting) at
<http://www.mrmug.org>
or
