Topic – Integration of Disparate Systems

How do you make a business process work by connecting two or more systems together? What are the available tools and what is the state of the art around connectivity between different systems that were never designed to work with other systems to begin with?

Would you believe that you can accomplish complex projects in very little time without programming? At low cost, even? Come to MRMUG this month and find out the answers to these questions and more.

And get a free lunch!

Speaker - Parke Cummins, Ciber, Inc.

Manager, Technology Solutions

Future Topics:

May 18, 2017: IBM App Connect (Formerly Cast iron)
